

EARLY WARNING SERVICES, LLC - CASE STUDY

“It was a pleasure working with **HURTADO CONSULTING GROUP**. The project management team was on top of every deadline, was proactive and was always thinking about the next steps necessary to make certain that our project was completed on time. HCG made the project easy for me and much of the thanks and appreciation I received was a direct result of the hard work HCG put into our project.”

*-Susan Donaldson
Early Warning Services, LLC*

THE PROJECT

A leading provider in fraud management with an exacting time schedule needed to be fully operational in their new suite. The project scope included Architect, Engineer and General Contractor selection, plus the subsequent build out of 38,000 square feet of new office space with strict security and IT requirements.

OUR RESULTS

- Successfully coordinated & executed the move of 140 employees from 3 suites in 3 days.
- Closely worked with the General Contractor to complete GMP pricing agreement.
- Provided synchronization between base building progress and new suite build out.
- Negotiated a 9% cost reduction on the furniture purchase.
- Prepared the IT voice and data request for proposal and managed the bid process.
- Identified and troubleshot existing and potential project delays. Developed and implemented effective solutions to resolve conflicts.
